

Editing Labels in BowTie Pro™

BowTie Pro[™] allows the labels to be edited to meet local language requirements or company terminology settings. The language strings are held in XML format files and these can be edited in a separate edit program.

To edit the labels on the screen

- Close BowTie Pro™
- On the start menu go "All Programs -> BowTie Pro -> Tools -> Language Editor"

Path :	C:\ProgramData\BowTiePro\BowTie Pro\Language		Browse
Danish		25-Mar-2013	
English		25-Mar-2013	
German		1-Apr-2013	
Spanish		23-May-2013	
	Open Selected File		

- Select English from the list of languages
- On the "Labels" section check the box "Show All Categories"
